Good protection for cyclists
Increased space for traffic
Small compromise on parking
space

Non road level option. Kerb
for cars to park beside.

Thanks for the excellent
consultation & options
development.

I prefer 'option E' as proposed by IBFA
Too much emphasis on cycleways
Public transport is preferred transport option
- Bus stops removed/reduced in number
- Cycleway is a current fad
- Council driven by ideology

There is a lack of information
and there is misinformation

Why did council not include option E
on this form?

IBFA co-ordinated residents response
yet council did not include IBFA preference

I have been told that the objection to option E
- that it does not meet new standards -
is not valid

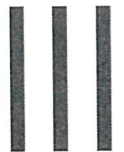

Are the council afraid of being usurped
by the IBFA?

Overall, I feel I am being misled by council

Option E. Paint it back to what it was before any type of ~~the~~ cycleway went up. This is what the people want. Why are other suburbs of Wellington left alone yet Island Bays roads get butchered with no option to go back to the original road. This was done without consulting the community.

all cars will have a driver who may open door into oncoming cyclist. ~~if~~ Cyclist may swerve into oncoming traffic & dire consequences. There will be fewer passengers to open door into an oncoming cycle & if they swerve or fall there will be much less dire consequences.

kerbing will aid parking so as to not park part way into cycle lane

more pedestrians & cyclists stop than car drivers. elimination of residential parking spaces will improve safety of backing out of driveways

- Less costly option
- Retain car parks and see local businesses continue to thrive
- Safer roads
- Cars parked next to kerb, easier to park, safer when getting kids out of car, won't have to navigate cyclists in between cars + footpath
- Bus stops - no cycle lane merging ~~at~~ behind bus stops (as so unsafe pushing pram on footpath / waiting for bus when cyclists are on footpath)
- Easier to see traffic when pulling out of side streets.

Option E — restore it to the original structure.

The current system is dangerous for residents backing out at their driveways and those using the road.

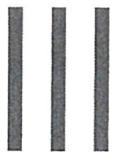

Most importantly once it moves out at Island Bay and into Berhampore + Newtown, it interferes with the rapid public transport routes out of Island Bay.

The transport priority is efficient public transport.
